

FRANKENSTEIN

Letters

Purpose: The purpose of this assignment is for you to illustrate mastery of skills, ideas, and concepts that we have covered throughout this school year.

Method: You will achieve this purpose by writing a letter to me for each of the assigned reading sections.

Details: This assignment is due at the beginning of class on each assigned reading date. Each letter will be worth 20-points for a total of 80-points.

Procedure: The letters that you write will be due at the time that each reading assignment is due. The letters should allow you to clarify your reactions and thoughts and to focus on the concepts that we have covered throughout the school year.

Due to the fact that this novel is comprised of many letters, you will write me letters instead of keeping passage journals for *Frankenstein*; you will write four letters based on an assigned topic for each section of the book.

These letters must be typed, double spaced, in a 12-point plain font and be one to two pages in length. Each letter must use **four well-blended** excerpts from that specific reading to support your ideas.

These letters should **convey your reactions to the book as the tale unfolds**. For each assigned reading section, you must also address the topic that accompany the assigned prompt, and you'll need a **minimum of 2 concepts per letter** are required, and you must discuss at least **one use of language** and how it affects the understanding of these ideas.

These letters should be a thorough analysis of each section. You may use any of the concepts that we have worked with throughout the year in order to facilitate a strong analysis of each section of the book.
